That sofa substitution looks small. What does it do to the approved total?

Selection Change Check

A client approved a room total that included the original sofa. Replace that line with the new quote and prepare a clear approval note.

1. **Enter one case**
   Start with the example or replace the three inputs with your own values.

2. **Read the result**
   Remove the old item once and add the replacement once. Record the approval before releasing the order.

3. **Choose a next step**
   Document the revised total and request approval.
