Before the tech makes a supply run, count what is already spoken for.

Parts Reorder Check

Look at a single truck-stock part. Reserve the units needed for open jobs and compare the balance with the target shelf count.

1. **Enter one case**
   Start with the example or replace the three inputs with your own values.

2. **Read the result**
   Free stock is on-hand stock less reservations. Replenish only the shortfall to the target.

3. **Choose a next step**
   Verify the physical count before placing the order.
